
Guidelines for Completing Immunization Record

North Carolina state law, N.C.G.S. § 130-1, mandates students attending a college or university, whether public or private, to present a Certificate of Immunization or a record of an immunization from a high school. In general, the law requires that students who reside on campus or students residing off campus who are taking five (5) or more traditional day credit hours on campus per semester, must meet the North Carolina State Law Immunization requirements contained in the student health form. Exceptions to this law include: students who have a bona fide documented medical or religious exemption; students who reside off
